GREAT
American and Foreign Office
FOR
Securing Patents for Inventions.
AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON
R. H. EDDY,
No. 76 State Street, opposite Kilby St.
BOSTON

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U S Patent Office under the Act of 1837,) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements, whereby on applications prepared and conducted by him, FIFTEEN DOLLARS (instead of twenty—as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency although the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions unsurpassed by if not immeasurably superior to any which can be offered elsewhere. The following letter is given to prove that home is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and confidently, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, a full account of patented inventions in the United States and Europe, render him able, beyond competition, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared and advice rendered in legal and scientific matters respecting inventions, and infringements of patents All necessary of a journey to Washington to procure a patent and the usual great delay there are here saved inventors.

Copies of the claims of any patent furnished for one dollar Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability

R H EDDY, Solicitor of Patents,

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R H EDDY, Esq., of Boston, did business in the Patent Office as Solicitor for procuring Patents. There were few, if any persons who transacted as much, or as much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the most informed and ablest class of Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications into a form to secure for them an early and favorable consideration at the Patent Office, EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]
"Aug. 17, 1855.—During the time I have held the office of Commissioner of Patents R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the laws and the rules and practice of the office. I regard him as one of the most able and successful practitioners with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents.

Wilbor's Compound of
Pure Cod Liver Oil and Lime,
A CURE FOR CONSUMPTION, COUGHS, COLDS, ASTHMA BRONCHITIS, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS

TESTIMONIAL.
We feel still fond the following, which is but one of the many testimonials constantly received
DR WILBOR. Dear Sir—I have found up the course of time during which extensive practice put the seeds of Consumption, that my medicine to be humble and strong. Both I and individual cases, but that my intense draft upon the efficient Constitution may leave the sufferer in final power to control the fatal disease I have in fever, in severe colds, and in constitutional affections, these great numbers of the human frame, the lungs being perhaps the oldest and most sensitive, begin often of the human organization, are ready to be first upon suffering. I of the last thing which is manifest than the right to get trial in the first event of disease. In consumption consists of deficiency of animal oil, or a supply of it in a free state which is so far unfit for respiration as is necessary to place it into the blood and circulate it thro' the system. While the health of the person of full age continues it is impossible for the disease known as consumption
In a series of my practice, I had found Cod Liver Oil a great and efficient agent I chanced to see your notice of it in the papers, and to obtain it, and to use it in my Oil, and Lime I cautiously examine the property of your combination being the same as experimented, and would recommend the medical properties of the Lime, which I have used in my practice two immensely important agents in the treatment of Consumption
I accordingly applied your remedy and in five months of special inquiries, gave Wilbor's Compound to several of the first that I have dispensed almost entirely to all consumptive cases upon your Cod Liver Oil and Lime I have found the medical qualities to be a healing and astringent nature and recommend it as the most perfect preparation of the kind in the discharged cells of the lungs which have decayed from various causes At recommend, as we, under a certain influence I give preparation satisfactorily that it not only answers the intended want of the physician, as it regards a restorative agent but also as to medicament incontinently strengthening the tone of the system, and thus giving to a Consumptive the want of what is wanted, viz the means of sustaining the Body until the requisite cure is effected
Having carefully tested these facts to my entire satisfaction, in an extended practice, I do not hesitate to supply to all consumptive patients—I try Wilbor's Cod Liver Oil and Lime

An Assumption not warranted by Facts.

The *Augusta Age*, in alluding to the publication of Gov Crosby's letter by the Kennebec Journal, says

If the letter is genuine, which we very much doubt, the democrats are in no degree responsible for anything Gov Crosby saw fit to write, while the Kennebec Journal was counselling him, and striving to become the Court organ by entering into and advising any course likely to effect that object

* * * *

Its publication by the Journal is very much in the nature of making Gov Crosby State's evidence against his associates of the *then* Kennebec Journal Whig junto, *now* Republican of the deepest dye

If the Age means to intimate by the above language that the Kennebec Journal "counselled or 'advised the Whigs to aid in the election of John W Dana to the U S Senate, or to enter into any bargain or trade 'with the wild-cats to secure the election of Gov Crosby, —we say, if the Age means to make any such assertion as this, we feel called upon to contradict it in the most positive manner The writer of this article had editorial charge of the Kennebec Journal at the time Gov Crosby's letter was written, and can speak somewhat decidedly upon the matter Neither at that time, nor any time since, up to a very recent date, did we have a knowledge of the writing of any such letter to anybody, as it now appears was writ en by Gov Crosby to Mr Stark, —nor did we believe that Mr Crosby himself sanctioned any scheme by which the Whig party was to be involved in a dishonorable coalition with the enemies of its principles, or by which the rights of any whig nominees for United States Senator were to be sacrificed, to secure his election We were not made privy to any such scheme and would never have sanctioned it if we had been It was rumored that men who are now Strait Whigs were urging such a trade with the Wild Cats, but the then editor of the Kennebec Journal was not in their confidence Both as a member of the Whig party, and as editor of the Kennebec Journal, we desired to secure the election of Gov Crosby, but not at any sacrifice of principle or of personal rights and we advocated, both privately and publicly,—at the session of 1853 and at that of 1854 —a strict adherence to the nomination of William Pitt Fessenden for the United States Senate—and we protested with Whig members of the Legislature, against any abandonment of him We considered the coalition which was said to be in embryo between some of the Whigs and the Wild Cat democrats as one which could not be defended upon any principles of political honor or honesty, and uniformly represented to our political friends that both justice and policy would forbid its being carried into effect And as a matter of fact, it will be remembered that at the session of 1855, Mr Fessenden was elected to the United States Senate, while at the same time Mr Crosby was re-elected as Governor —We know it was said that some members of the Legislature who are now intense Strait Whigs did vote for John W Dana on that occasion in pursuance of a definite arrangement, having perhaps, as Gov Crosby a letter expresses it an ultimate tendency, to an open, public coalition But however that may have been we can assure the Age that the Kennebec Journal was never implicated in the bargain

Town Elections.

AVON —The Farmington Chronicle says

We learn that Avon elected Republican town officers throughout, on Monday last This town has never before given a Republican majority The Sham Democracy strained every nerve to carry the day and thus retain their power in this town, but were completely routed.

The vote last September was Morrill 55, Wells and Reed 91 2

In the town of HARMONY, which now elects Republican officers by a vote of 108 to 68, Mr Morrill received 98 votes last fall, and Wells & Reed 125 An astonishing change.

BRADLEY —At the election in Bradley, on Monday last, a Republican board of town officers was elected by about 50 majority

A BOMB SHELL IN THE CAMP —In the Senate, on Friday, Mr. Morrill of Kennebec President of the Board, came down from the Chair, and made a most earnest and eloquent speech against Barnes, Farley & Co's on the liquor law He took distinct and unequivocal ground in favor of the prohibitory principle and charged the party associates with violating the pledges made before election He also spoke strongly in favor of free soil principles, Mr Morrill's speech made a great sensation, and is looked upon as a declaration of independence from him, in regard to his former party relations He did not finish his remarks until Saturday morning

REV P A. HOPKINSON.—[From the Belfast Journal 21st] We notice by a letter in the Gospel Banner that Rev P A Hopkinson, who formerly occupied the desk of the Universalist Church in that city, has returned from New Haven to his home in Kenduskeag Mr H's strong local attachment and love of rural life and employment, have led him to retain a small farm and property where his youth was passed We are glad he is in Maine again He is a true and sincere man, earnest in his endeavors to promote the good of the denomination with which he is connected and the community at large

BOLD BURGLARY AND ROBBERY —On Thursday night, the house of Capt. Robinson, corner of Hammond and Ohio streets, was entered, as is supposed, through the back door and woodshed, and from the chamber in which two of Capt. Robinson s brothers were sleeping two watches belonging to them were taken, one a very valuable gold watch, and a pocket book containing about $50 No other rooms were entered, and no other valuables were taken although the burglar might have done so Several burglaries and robberies have been committed here recently, but this is the boldest.—*Journal*

THE POETICAL WORKS and other Poems By John G. Whittier Boston Ticknor & Fields.

While Whittier is recognized and loved as the great poet of human freedom whose best productions grow with a strong and fervent anti-slavery purpose, his writings are also filled with the most spiritual sentiment of all nature, and adorned with the most exquisite pictures, delightful to the lovers of beauty The leading poems in this volume especially read before the Anti-Slavery Society, by Rev. T Starr King, His patriotism is of our country, as presented to us among every snowman a cannon—and the pole being cut out his pictures as vividly to the mind's eye, as if actually presented in immortal colors.

We present two views from his canvas

Slowly the curtain rose from off a land
Fair as a garden Broad on either hand
The golden wheat fields glimmered in the sun,
And the pale maize its yellow tassels spun
Smooth highways led with hedge-rows living green
With orchard tufts and planted vistas seen,
The school house murmur with its happy hive
swarm
The wood bound brook whitening in the grist mill's storm
The painted farm house looking through the
Of fruited forests trending to its caves,
Where, in vegetable, around the Western hearth,
The honest old-time virtues of the North,
Where rich but humble household seen with the day,
And well paid labor counts task a play
And grateful welcome of a Rest is free,
And the Gospel of Holiday,
Of diverse sects and differ names the shrines,
One in their faith, while each its outward signs,
Like varying strophes of the same sweet hymn,
From many a pinnacle swell the dinner's brim,
A thousand church spires a Sunday air
Of thanksgiving Sabbath with its sign of prayer

* * * *

"Look," said the Showman simply, as he rolled
His curtain upward "Fate reverse behold!"

A village straggling in lo disarray
Of vulgar newness, premat decay,
A tavern crazy with its sha ly inwalls,
With *Stares* and *Auction* ornaining its walls
Without, surrounded by a mi ly crowd,
The shiftless loungers of a village loud,
A squire or colonel in his pl of place,
Known at free fights, the ca s, and the race,
Prompt to proclaim his hon e without blot,
And silence doubters with a n-pace shot,
Mingling the negro-driving Willy's rant
With pious phrase and dem atic cant,
Yet ever struggling with a n her's best,
To sell the infant from its m breast,
Break through and ties of we lock, home and kin,
Yield shrinking girlhood up gray-beard sin,
Sell all the virtues with his man stock,
The Christian graces on his otion block,
And coolly pocket the bargains driven
In hearts regenerate, and im ules forgiven

At the close of the panorama, the poet s vision beholds freedom finally triumphant in our country, and he presents the sublime picture thus

So, wherever on our destin reads forth
Its widening circles to the Sk
Where softer banner flaunts neath the stars
In immie splendors and its d like bars;
There shall Free Labor s d shall stand
The equal sovereign of a sla s land
And when at last the hunted ing tires,
And dies pursuit at the sq tate's fires
And westward, wanton wave the living flood
Breaks on the snow-line of m gestic Hood,
And long Sierras, leaning the tread
Of Empire's far fabled chariot, Hope led,
And gazing downward through hal hoar locks,
sees
The tawny Asian climb his g knees,
The Eastern seas shall hush t waves to hear
Pacific s shall roll back t echoes cheer,
And one long rolling fire of triumph ring
Between the sunrise and the sunset gun

The largest portion of the volume is occupied with exquisite miscellaneous poems and ballads

AMERICAN SLAVER SEIZED —The schooner Mary E Smith, which sailed from Boston recently for Montevideo, has just been seized with a cargo of slaves, by a Brazilian war vessel, and condemned. She took 500 negroes from Africa—of whom 180 died on the passage and 60 more soon after the vessel was seized

THE NEW DARK LANTERN PARTY —A correspondent of the Portland Advertiser thus describes the Legislative caucuses of the party which was, last year, so horrified at the idea of secret political cabals. Every political, and even *Legislative* measure of importance is now decided in *secret* caucuses, and the party members pledged, if not actually sworn, to execute the mandates of the caucus It is by such a Star Chamber edict that a Judge of the Supreme Court is to be removed for an honest decision which he was obliged to make

The "subterranean legislature," as it is called, holds nightly sessions in the underground room at the north end of the capitol, its members assemble under cads punned for the doors leading to the Representatives' Hall, and the Senate chamber requesting the Whig and Democratic members of the Legislature to meet at the Agricultural Room, at 7 o'clock, this evening, &c Soon as the evening shades prevail, the members of this secret institution wend their way to the place, and are admitted The door is open veyed, the room examined, the inmates questioned as to their knowledge of the pass-word, and when all things are reported "correct, the ceremonies of the Legislative K N iconical commences Here the measures proposed to be brought forward in the Legislature, held in the day light, are considered, and their originators enforce the necessity of their passage.

A GIRL OF MARK —Upon the conclusion of a marriage at Bayridge church in England, a few weeks since, the bridegroom signed the register with "his mark." The pretty young bride did the same, she then, turning to a lady who had known her as the best scholar in the school, whispered to her, while tears of honest love and admiration stood in her eyes, "He's a dear fellow, must but cannot write yet. He's going to learn of me, and I would no shame him for the world Was she not emphatically a girl of mark?

THE DEER AND THE SNOW.—So terrible has been the effect of the cold and snow on the mountains west of us, that the deer have become so weak from starvation that they have been captured in numbers, by individuals who have them confined in their stables for the purpose of saving their lives. Mr. Wm Glotfelty has 9 in confinement, and so tame have they become that they will feed out from the hand. —*Cumberland (Md) Telegraph.*

ONE OF WOMAN'S ADVANTAGES. Judge Gould, of the Ulster county, N. Y., court, has decided that a married woman is not amenable to theft or other crime, in the presence of her husband, as not to be considered a party to the offence. The husband having authority over the wife's actions, is alone responsible, and the magistrate committing a woman under such circumstances is liable to an action for false imprisonment.

Romance of Real Life—First Steamboat in the West—The Earthquake of 1811.

From Latrobe's Rambles in North America

Circumstances gave me the opportunity of becoming acquainted with the particulars of the very first voyage of a steamer in the West The complete success attending the experiments in steam navigation made on the Hudson and adjoining waters, previous to the year 1809, turned the attention of the principal projectors to the idea of its application on the western rivers, and in the month of April of that year Mr Roosevelt, of New York, pursuant to an arrangement with Chancellor Livingston and Mr Fulton, visited those rivers, with the purpose of forming an opinion whether they admitted of steam navigation or not At this time two boats, the North River and the Clermont, were running on the Hudson Mr R. surveyed the rivers from Pittsburg to New Orleans, and as his report was favorable, it was decided to build a boat at the former town.

This was done under his direction, and in the course of 1811, the first boat was launched on the waters of the Ohio She was called the "New Orleans," and intended to ply between Natchez, in the State of Mississippi, and the city whose name she bore. In October she left Pittsburg for her experimental voyage On this occasion no freight or passengers were taken, the object being merely to bring the boat to her station Mr R, his young wife and family, Mr Baker, the engineer, Andrew Jack, the pilot, and in his wife, with a few domestics, formed her whole burden There were no wood-yards at that time, and constant delays were unavoidable When, arrested, Mr. R had gone down the river to reconnoitre, he had discovered two beds of coal, about 120 miles below the rapids at Louisville and now took it ols to work them, intending to load the vessel with the coal, and to employ it as fuel instead of constantly detaining the boat while wood was procured from the banks.

Late at night on the fourth day after quitting Pittsburg, they arrived in safety at Louisville, having been but seventy hours descending upwards of seven hundred miles. The novel appearance of the vessel, and the fearful rapidity with which it made its passage over the broad reaches of the river, excited a mixture of terror and surprise among many of the settlers on the banks, whom the rumors of such an invention had never reached, and it is related that on the unexpected arrival of the boat before Louisville, in the course of a fine, still, moon light night the extraordinary sound which filled the air as the pent up steam was permitted to escape from the valves on rounding to, produced a general alarm, and multitudes in the town rose from their beds to ascertain the cause

I have heard that the general impression among the good Kentuckians was that the comet had fallen into the Ohio but this does not rest upon the same foundation as the other facts, which I lay before you, and which I may at once say, had directly from the parties themselves The small depth of water in the rapids prevented the boat from pursuing her voyage immediately, and during the consequent detention of three weeks in the upper part of the Ohio, several trips were successfully made between Louisville and Cincinnati In fine, the waters rose, and on the course of the last week in November the voyage was resumed, the depth of water barely admitting their passage

When they arrived about five miles above the Yellow Banks, they moored the boat opposite to the first vein of coal, which was on the Indiana side, had been purchased in the interim of the State government. They found a large quantity already quarried to their hand and conveyed to the shore by depredators who had not found means to carry it off and with this they commenced loading the boat While thus engaged, but voyagers were accosted in great alarm by the squatters of the neighborhood, who assured them they had not heard strange noises in the night, nor seen unaccountable sights in the woods in the course of the preceding day, and perceive the shores shake—insisting that they had repeatedly felt the earth tremble.

Hitherto nothing extraordinary had been perceived The following day they pursued their monotonous voyage in those vast solitudes The weather was observed to be oppressively hot; the air misty, still and dull, and though the sun was visible, like a glowing ball of copper, his rays hardly shed more than a mournful twilight on the surface of the water Evening drew nigh, and with it some indications of what was passing around them became evident And as they sat on deck, they overheard and soon heard a rushing sound and violent splash, and saw large portions of the shore tearing away from the land and falling into the river It was an awful moment said, "an awful day, as still that you could have heard a pin drop on deck They spoke little, for every one appeared thunderstruck. The dismal night disappeared about this time, which circumstance was noticed with awe by the crew

The second day after leaving the Yellow Banks, the sun rose over the forests the same dim ball of fire, and the air was thick, dull, and oppressive, as before. The portentous signs of this terrific natural convulsion continued and increased. The pilot, alarmed and confused, deemed that he was lost, as he found the channel everywhere altered, and where he had hitherto known deep water, there lay numberless trees with their roots upward The trees were seen nodding on the bank, without a wind, but the adventurers had no choice but to continue their route. Toward evening they found themselves at a loss for a place of shelter They had usually brought to under the shore, but every where they saw the high banks disappearing, or overwhelming many a flat boat and raft from which the owners had landed and made their escape

A large island in mid channel, which was selected by the pilot as a better alternative, was sought out in vain, having disappeared entirely Thus, in doubt and terror, they proceeded hour after hour till dark, when they found a small island, and rounded to, mooring themselves to the foot of it Here they lay keeping watch on the deck during the long autumnal night, listening to the sound of the waters which roared and gurgled horribly around them, and hearing from time to time the rushing earth slide from the shore, and the commotion as the falling mass of earth and trees was swallowed up by the river

The lady of the party a delicate female, was frequently awakened from her restless slumbers by the jar given to the furniture and loose articles in the cabin, by several times in the course of the night the shock of the passing earthquake was communicated from the island to the bow of the vessel. It was a long night, but morning dawned and showed them that they were near the mouth of the Ohio The shores and the channel were now equally unrecognizable for every thing seemed changed About noon that day they reached the small town of New Madrid, on the right bank of the Mississippi. Here they found the inhabitants in the greatest distress and consternation, part of the population had fled in terror to the higher grounds, others prayed to be taken on board, as the earth was opening in fissures on every side, and their houses hourly falling around them.

Proceeding from thence they found the Mississippi, at all times a fearful stream, now unusually swollen, turbid and full of trees, and after many days of great danger, though they felt and perceived no more of the earthquakes, they reached their destination at Natches, at the close of the first week in January, 1812, to the great astonishment of all, the steamer of the boat having been considered as impracticable!!!

At that time you floated for three or four hundred miles on the river without seeing a human habitation.

Such was the voyage of the first steamer. The natural convulsion, which accompanied at the time of her descent, had been but slightly felt, but will never be forgotten in the history of the West, and the changes wrought by it throughout the whole alluvial region through which the Ohio and Mississippi pour their waters, were perhaps as remarkable as any on record We hear less of its effects, because the region in which it occurred was of such vast extent and so thinly peopled. That part of the alluvial country which is contiguous to the point of junction of the two rivers, and especially the vicinity of New Madrid, seems to have been the centre of the convulsion There, during the years 1811 and 1812, the earth broke into innumerable fissures, the churchyard, with its dead, was torn from the bank, and engulphed in the turbid stream To the present day it would appear that frequent slight shocks of earthquake are there felt, and it is asserted that in the wast swamp at the back of the town, strange sounds may at times be heard, as of some mighty cauldron bubbling in the bowels of the earth Along the banks of the river, Thousands of acres with their gigantic growth of forest and cane, were swallowed up, and lakes and ponds innumerable were formed.

The earth in many parts, was observed to burst suddenly open, and jets of sand, mud, and water to shoot up into the air The beds of these giant streams seemed totally overturned, islands disappeared, and in many parts, the course of the river was completely changed Great inundations were the consequence The clear waters of the St Francis were obstructed, the ancient channel destroyed, and the river spread over a vast tract of swamp. In many places the gaping earth unfolded its secrets, and the bones of gigantic mastodon and ichthyosaurus, hidden within its bosom for ages, were brought to the surface Boats and rafts with out number were swallowed up, some buried by the falling in of the banks, and others dragged down with the islands to which they were anchored And finally, you may still meet and converse with those who were on the mighty river of the West when the whole stream ran towards its source for an entire hour, and then resuming its ordinary course, hurried them helpless on its whirling surface with accelerated motion towards the Gulf.

SHOCKING CASE OF INSANITY.—A letter from Vienna, in the Zeit of Berlin contains the following —"An event has just taken place here which has been much talked of A clerk in a merchant's office, whilst working at his desk, felt a sort of presentiment of coming danger, which led him suddenly to return home He there found his wife in bed, as she had been for some days confined of a son only three days before She was dressed, her eyes were haggard, and her looks animated by fever

She said to him "It is well that you came, for I will now roast the goose, which will be ready at once. At the same moment the clerk heard the cry of a child in the kitchen He rushed to the spot, and found the new born child tied up, and lying in the frying pan The mother taken suddenly with whitemilk fever, had mistaken her child for a goose, and was about to put it to death The father happily arrived in time to prevent such a catastrophe

LEGISLATURE OF MAINE.

THURSDAY, March 27

HOUSE, Report of Committee on Railroads and Bridges giving leave to withdraw on petition of Gideon Mayo and others, came from the House referred to the next Legislature

On motion of Mr Farley the Senate nonconcurred, and insisted on its former vote accepting the report.

Mr Lowell, from the Committee on Claims, reported that petition of the City of Bangor should be referred to committee on Insane Hospital—accepted

Bill regulating the compensation of jurors for support of prisoners in county jails—also bill authorizing towns to purchase and hold fire engines—read twice and to committee assigned

Bill to incorporate the Oldtown Manufacturing Company was read a second time and on motion of Mr Barnes, amended by striking out the third section As amended, the bill was passed to be engrossed

The Senate proceeded to consider bill "an act to restrain and regulate the sale of intoxicating liquors, and to suppress drinking houses and tipling shops."

The question was on the amendment to strike out the 18th, 19th, and 20th sections

Several amendments were made, the most material of which is to the effect that a note is collectable if given in *part* for intoxicating liquors, though not so if given in whole for them.

The consideration of the motion to amend by striking out the 18th, 19th, 20th sections, (the provisions for search and seizure,) was then discussed, and a lengthy discussion ensured, participated in by Messrs Goodwin and Bean, against striking out, and Messrs Thompson, Swasey, and Barnes, in favor of striking out

House Committee on State Lands, reported adversely on resolve for appropriations for roads in Aroostook Co

Passed to be engrossed—Resolve in favor of the town of Dixmont

Bill making valid the doings of the town of Exeter, introduced yesterday by Mr. Blake of Bangor, was referred to the Committee on the Judiciary

Passed to be enacted—Bills to incorporate the Penobscot Loan Fund Association, to amend the first section of an act defining the power of mayors of cities in the election of city officers.

Committee on the Judiciary reported that petitions of Woodbury Storer and others, Myrick Emerson and others, M A Farwell and others, Josi Richardson and others of Oldtown, be severally referred to the next Legislature

Bill for the consolidation of certain railroad corporations was read a third time, and amended in concurrence

Mr Foster, of East Machias, moved to amend the bill by adding a section reserving to the Legislature the power to alter the charter at pleasure

After debate the amendment was rejected, yeas 54, nays 60, and the bill was passed to be engrossed

Mr Talbot called up the bill to limit the jurisdiction of the municipal court in Calais

Mr Hume of Robbinston, moved indefinite postponement. He said his constituents were in favor of the present court in Calais

The motion to postpone indefinitely was negatived, 42 to 62.

Mr. Duren spoke in opposition to the bill A few days since, a bill was passed limiting the powers of constables because gentlemen were not in favor of special legislation Now they propose a *special* act to apply to Calais only — Every other city stands on the same footing with Calais but Calais is to be made an exception to all other places. Mr H proceeded to give the history of the bill It is a party measure. It originated in a gentleman who smokes a good cigar; and wears an unexceptionable shirt collar, and receives $3 a day from Frank Pierce's Administration That is the character of the author of this bill. He boasted last fall that he would put his knife to Judge Dyer — Calais is a Republican city There is no probability, at present, of the author of the bill holding elected Judge by the city of Calais.

The bill was passed to be engrossed by a strictly party, yeas 65, nays 42 [Ed]

FRIDAY, March 28.

SENATE.—Mr Swasey, from the Judiciary Committee, reported "leave to withdraw" on petition of John H. Rice for increase of salary as County Attorney of Piscataquis County. Accepted.

On motion of Mr Swasey, the Senate proceeded to the consideration of the bill in relation to the sale of intoxicating drinks.

The question was upon the "search and seizure clauses," so called.

On motion of Mr. Farley, the yeas and nays were ordered The question was then taken, and resulted yeas 16, nays 8, as follows,

Yeas.—Messrs. Ayer, Barnes, Blaisdell, Cates, Farley, Franck, Keegan, Holland, Jones, Merdey, O Brien, Read, Robinson, Rowell, Swasey, Talbot, Thompson, Weston—18.

Nays.—Messrs Bean, Butler, Goodwin, Jenkins, Kezar, Lowell, Morrill, Shepard—8

Mr Shepard proposed several Amendments, the purport of which was to date definitely the commencement of fines or imprisonments for the violation of the act.

On the question of adopting one of the amendments, Mr Shepard moved that the question be taken by yeas and nays

This was objected to Mr Shepard then moved to take the question on ordering the yeas and nays The request was granted, and the vote resulted, yeas 4, nays 22, as follows

Yeas—Messrs Goodwin, Jenkins, Read, Shepard—4.

Nays—Ayer, Barnes, Bean, Blaisdell, Butler, Crane Farley, French, Keegan, Holland, Jones, Kezar, Lowell, Marden, Morrill, O Brien, Robinson, Rowell, Swasey, Talbot, Thompson, Weston—22.

So the yeas and nays on the amendment were not ordered

The amendments proposed by Mr. Shepard were severally rejected

Mr Shepard then moved that the usual number of copies of the bill as amended, be printed.

This motion was rejected, only one voting in the affirmative.

The question then returned upon passing the bill to be engrossed as amended.

Mr Farley said he did not like the bill, but should vote for it

Mr. Barnes said, I expect to be misunderstood I expect to be misrepresented and I am willing to take the consequences As to those who misunderstand me, honestly, I wait for time and right to bring the needed explanation As to those who misrepresent me purposely, I neither expect nor desire their mercy

Mr Morrill, the President of the Senate, then asked consent to offer some remarks upon the bill, the request was unanimously granted.

Mr Morrill said that he desired the courtesy of the Senate while he should submit some remarks against the bill, and especially against the doctrines of the report which accompanied it The principles were at war with all sound reform in philosophy, false as applied to legislation, and destructive of all the sound maxims upon which the social fabrics were built In a most masterly manner he stripped the veil of plausibility from the learned Professor's production and unfolded its detestable ties The fallacy of the assumed dogma, that a man has a natural right to get drunk, and to sell intoxicating liquors, was exposed in eloquent language and close argument The constitutional right of the State to restrain and even prohibit the traffic, he asserted as broadly as the same was ever enforced by the most zealous Maine Law men, and his positions he defended and sustained by reference to decisions of the United States Courts and Courts of the State. He incidentally remarked that some of the provisions of the law of 1856 he considered useless and perhaps severe but in its principles and scope it was on the same foundation with the law of 1846, from which point of time he dated the introduction of legislation, correct in its principles and consonant to the demands of the age

Read and assigned—An act to incorporate the West Branch Chesuncook Boom Corporation

Act, to incorporate the Penobscot Mutual Loan Fund Association

Act in relation to the powers of Mayors of cities in the election of city officers.

AFTERNOON —Mr. Morrill resumed and concluded his remarks in opposition to the bill in relation to intoxicating liquors

Mr Barnes followed in reply.

HOUSE —Resolve increasing the pay of Adjutant General to $500, was read a second time, and on motion of Mr Levensaler, the sum reduced to $400

Mr Duren moved to indefinitely postpone, and addressed the House in support of the motion

The resolve as amended was advocated by Messrs Blake, Talbot and Foster, of East Machias, and opposed by Messrs Barker, Duren and Morgan.

After further debate the resolve was referred to the Committee on Militia—50 to 46.

Holloway's Pills, invaluable to persons afflicted with diseases of the liver and stomach The virtue of these Pills having been tested in all parts of the civilized world, parties afflicted by the diseases of the above organs, render it needless to expatiate upon their merits The thousands who have derived benefit from them in each and every one of the States, being sufficient to convince the most incredulous All those who are afflicted with liver and bowel complaints, indigestion, sick headache, and dizziness cannot make use of a remedy so certain as its results as Holloway's Pills for the restoration of blood to the head their effect is equally positive They are also an unfailing remedy for asthma if used in conjunction with Holloway's Ointment, which can be well rubbed into the chest night and morning

The jury in the United States Court to-day rendered a verdict in favor of Gov. Price for $150,000, against the United States Government, being $75,000 to be adjudicated on by Congress, which could not be legally settled in the Court.

Railroad Accident.

PITTSBURG, March 29.

The train which left Philadelphia this afternoon for this place, was thrown down an embankment fifteen feet, and was only saved from going into the river by the cars lodging in the ditch. Two of the passengers were seriously injured, and others badly bruised.

ROBBERY.—A person calling himself J. L. Strickman, was committed to jail last evening, on a suspicion of having committed a small robbery. He presented a check yesterday afternoon at the Mechanics Bank in this city, to be cashed. It was drawn by a Bank in New York, upon the Boston Bank, payable to the order of J. S. Baker, Cashier of the Mercantile Bank in Bangor. Mr. Stephenson, the Cashier of the Mechanics Bank, discovering that the signature of Mr. Richer as endorser was forged, caused the fellow to be arrested and committed to jail. It is supposed he obtained the check by robbing the Post Office Box in Bangor.—*Portland Adv.*

THE NEBRASKA AFFAIR.—THE KANSAS COMMITTEE.—*New York, March 28.* The Herald's Washington correspondent says that Messrs. Vanderbilt and White have left for New York. The Nicaragua embroglio, so far as the Administration is concerned, has completely failed. Cum Vanderbilt having failed to get our government to interfere. I understand they intend taking the matter before Congress.

The Chairman of Ohio, returned this evening, and the Kansas Commission is in session, arranging preliminaries. The Commission apprehend no difficulty whatever in the prosecution of their labors in the territory.

GOVERNOR OF WISCONSIN.—*Milwaukie, March —.* The Assembly to-day by a vote of 37 to 7 recognized Mr. Bashford as Governor. Mr. McArthur has conceded to act as Lieut. Governor.

Notwithstanding the decision of the Court will be sustained and enforced, notwithstanding it was [illegible] to the man who was acting and claimed to be Governor! This decision of the Court, was what the Argus and Governor Well... would call carrying it... But they don't have [illegible] in every State! See letter of the *Nashua* Governor Wells and an A... *Portland Advertiser.*

Seth Rice Ann, of Tremont, [illegible], from Jacksonville for Boston, before reported abandoned in a sinking condition, sprung a leak in several [illegible] inst., and filled in five hours. All hands took to the boat, which was papsized, but [illegible] being expert swimmers succeeded in reaching the wreck again. After this the [illegible] was cut away, and the vessel was kept under a balance reefed [illegible], all hands being confined to the quarter deck for four days and nights. On the 26th inst. they were rescued by steamship Illinois, from Aspinwall.

Schr Lucullus, of Castine, which went ashore on the south side of Block Island, some time since, on her passage from St. Marys, Ga., for Pembroke, Me., has been condemned as not worth getting off; and was sold at auction on the 18th inst., with all her materials as she lays, for $—.

A gang of Jury trying a man and every one of them twelve" under solemn engagement to [illegible] two weeks in advance of his hearing. Imagine the [illegible] and you have an exact parallel to the farce by which a Supreme Judge is to be [illegible] from the bench by the present Legislature. We are not yet heard one member of the Coalition say and we have talked with more than a dozen of them about it) that he intended to vote for Judge Davis' removal, and yet the Judge is to be tried hearing. How scandalously absurd!—*Kennebec Journal.*

A CASE OF SIMPLICITY.—One of the sweetest incidents which we have noticed for many a day—and one which shows the effect of early training assisted by pure and unpolluted imagination—has fallen under our observation. It is thus related. A lady visited New York city and saw on the sidewalk a ragged, cold and hungry little girl, gazing wistfully at some of the cakes in a shop window. She stopped, and taking the little one by the hand led her into the store. Though she was aware that bread might be better for the cold child than cake, yet desiring to gratify the shivering and forlorn one, she bought and gave her the cake she wanted. She then took her to another store where she procured her a shawl and other articles of comfort. The grateful little creature looked the benevolent lady up full in the face, and with artless simplicity said, "Are you God's wife?"

Did the most eloquent speaker ever employ words to better advantage?

Cheap & Convenient Building.

Door, Sash and Blind Factory.
A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systemized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Rose Place, or at the store of M. S. Jackson, on Exchange st., and at either place any articles may be obtained or large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized in the business that no man should now think of building in the old and slow and imperfect methods.

By the aid of a microscope we see millions of little openings on the surface of our bodies.—Through these this Ointment, when rubbed on the skin, is carried to any organ or internal part. Diseases of the Kidneys, Diseases of the Liver, affections of the Heart, inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every physician knows that salt passes through bone or meat of any thickness.—This healing Ointment far more readily penetrates through any portion or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. In case of Salt Rheum, Scurvy, Sore Head, Scrofula or Erysipelas, can long withstand its influence. The inventor has travelled over nearly parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has, by command of the Aged Governments, dispatched to the Hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swellings, gathering or contraction of the joints, even of 20 years' standing.

Piles and Fistulæ.

These and other similar distressing complaints can be effectually cured, if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Fits	Sprains
Burns,	Rheumatism	Scalds
Chapped Hands	Skin Diseases	Sore Throats
Chilblains	Sore Breasts	Swelled Glands
Coco Bay	Sore Legs	Stiff Joints
Colds	Sore Heads	Ulcers
Corns	Sore Throats	Venereal Sores
Lumbago	Scalds	Wounds of all
Mercurial Eruptions	Scurvy	kinds

These Pills Purify the Blood.

They are searching but mild in their operation, and while they are sufficiently powerful to subdue any violent disease that may occur, they are equally adapted to the weakest system, where prostration is the result of disease. Learned Colleges of Physicians have given their opinion that this medicine is the best remedy ever known for purifying the blood, and regulating the system in all cases, and is the best and safest medicine ever yet discovered for the young and old of all ages, and is consequently no family should be without it.

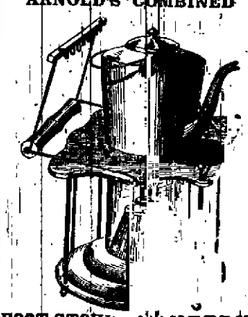
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN, AND NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be blown out, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat-iron heat in the same length of time.

In fact the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would be telling what our readers can all see at once of themselves.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether in children or adults, of recent or long standing.

PREPARED ONLY BY

REV. WALTER CLARKE,

Sole Proprietor, Cornwallville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary powers in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged; and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferer to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

☞ Sold in trial bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Brookfield, Maine.

FEBRUARY, 17th, 1853.

To Rev. Walter Clark, Dear Sir—The bottle of Cough Mixture which I bought of you the day you left here has relieved me of my cough for two years—the bottle entirely removed it.

From Rev. Josselyn Lovejoy, Lewiston Falls.

REV. CLARKE—Every bottle of the Universal Cough Mixture which you left with me, in accordance with your request, I have several applications for since you left, all of which have been perfectly satisfied with the medicine. One in town, who had a cough of long standing, attended for the most part of the time with hemorrhage of the lungs, and bleeding at the nose, and who was also troubled with a pain in the side, after taking from one bottle, purchased one large bottle, and before that was taken one third of it, was so relieved of her cough, and pain in the side, that she had not enough more. She says she has used more than one hundred bottles of different medicines in the course of her sickness, but never found any relief from any of them, until she found relief from the Universal Cough Mixture.

From Mrs. Hubbard, Thorndike, Me.

To Rev. Walter Clark, Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicines, and had been under the care of several physicians, without obtaining the least relief, happily your Universal Cough Mixture was recommended to me, I procured a bottle, which I began to take according to directions on the label, by which in a few days I was entirely cured.
